Attila Kiri

LANGUAGES

HU 
(Native level)

EN 
(Fluent speaking, writing)

DK 
(Beginner, Basic sentences)

HOBBIES

Cooking (Whole food dishes, with Italian specialties occasionally)

Running

Latin dance (Salsa, Bachata)

Martial arts (Savate, Judo)

Volleyball

ABOUT ME

Highly motivated, outgoing, and service-minded individual with a passion for continual learning. I thrive in team environments, but I can work independently. Eager to deliver exceptional service and contribute positively to both colleagues and customers.

I have three years of experience working with international stakeholders and group leaders, effectively communicating project matters with clarity. In my opinion, these skills can seamlessly translate to working with customers as well.

EDUCATION

University of Szeged

2019 – 2023

Computer Science Engineering BSc, my thesis deals with Embedded Machine Learning.

Technical University of Denmark (DTU)

2024 – present

Autonomous Systems MSc, this course's focus is systematic problem solving with Artificial Intelligence and systems engineering.

EXPERIENCE

TEConcept Hungary – Embedded Software Engineer

2022 February – 2023 February

I had to create fast and robust software components for industrial communication in C/C++ based on IO-Link.

Robert Bosch - Cybersecurity Engineer

2023 march – 2024 July

I had to test cybersecurity software modules for car transmissions in laboratories.

I also co-led a PowerBI project where we had to make a fast and automated application with interactable graphs and reports with refreshing data for stakeholders from abroad.

OTHER EXPERIENCE

I have attended ATENA workshop in Poland about Artificial Intelligence and its uses in real life, we had to work in teams and train multiple models for specific problems to get the best results. Also had to present the findings and draw conclusions.
